

Jumpstart! Preparation for Practice

Jumpstart! is a conference-like experience that is designed to prepare students for social work graduate education and to set the stage for them to develop the necessary knowledge, skills and understanding of the profession to successfully complete the program. *Jumpstart!* was developed for incoming social work students after listening and responding to feedback from students and faculty members. Over the years we learned that students wanted specific information and support at the start of their social work program and they also wanted to begin to build a strong sense of community among the student body.

It is expected that all incoming students will participate in *Jumpstart!*
